Colours shown are indicative only

Whitemark white boards, made out of  environmental ceramicsteel, have a contemporary design with an elegant aluminium frame and rounded plastic corners.

They are available with glossy or matt surfaces. The glossy surface enables easy writing and erasing while the matt surface serves the dual purpose of a writing board and a projection screen. This helps combine photographic image with personal written notes.

Graph Boards

These boards are ideal for writing with guidelines for lettering and graphs. The grids of 5 cm square offers an accurate structure for entering graphs, statistics or a simple schedule.

Advanced screen printing technology allows the fusion of grids to the ceramic surface, thus ensuring their permanency.
