

ēno™ classic

Interactive Whiteboard

by Polyvision

One whiteboard... infinite possibilities

ēno classic is the first and only environmentally certified interactive whiteboard to combine the simplicity and ease of a traditional markerboard with high-performance interactivity - without cords, cables or costly installation.

Go from markers to multimedia, from ink to internet, on a virtually indestructible ceramicsteel surface. Project your computer screen onto ēno classic and navigate through documents, presentations or websites from the board. Make notes to your heart's content with a regular dry-erase marker or with the stylus. In one simple click, save all your interactive notes to post, print or email. Or, reload the session and dig in again. It's that simple.

Features

- Embrace simplicity : no cords, cables or hard connections to power or data. Installs in minutes.
- Write and erase without care : ēno classic offers an exceptionally smooth surface for dry-erase notes that erase today and 30 years from now.
- Replace instead of repair : With all technical components consolidated into a Bluetooth-enabled stylus, worries about multiple points of failure are a thing of the past. The board is maintenance-free; the stylus is a next-day replacement.
- Multi-user input : up to three users can simultaneously interact on ēno and / or ēno mini slates.
- Environmentally certified : Cradle-to-CradleSM Silver and SCS Indoor Advantage Gold certified.
- Durable and long-lasting ceramicsteel surface that lasts a lifetime.
- Magnets; markers; multimedia : three boards in one.
