

Technical Specifications

Writing Surface (ēno interactive and dry-erase)

- e³ environmental ceramicsteel

Power Requirements

- No power required for the ēno flex board
- Stylus requires one AAA battery

Accessories (included)

- Bluetooth stylus
- Moveable magnetic icon strip
- Bluetooth receiver for Windows or Macintosh (USB interface)
- One AAA battery
- Driver software
- Two replacement stylus tips

Educational Software (optional)

- RM Easiteach

Environmental Certifications

- SCS Indoor Advantage Gold
- RoHS
- Qualifies for LEED points

Recommended Computer Requirements

Microsoft Windows

- Pentium processor
- 512MB RAM
- XP, Tablet XP service pack 2 or above, Vista®
- One available USB port

Apple Macintosh

- PowerPC or Intel microprocessor
- 512MB RAM
- System software OS X 10.3.9 or higher
- One available USB port

Bluetooth Stack Support

ēno flex supports the following Bluetooth stacks:

- Windows: Microsoft, Toshiba, Blue Soleil™, Widcomm® / Broadcom®
- Macintosh: All Apple stacks

Only ēno flex meets the needs of educators and architects with a single solution, combining interactive and traditional surface.

 bring learning to life™

Interactivity... spec it from the start

ēno flex is the first multi-surface solution to integrate traditional dry-erase surfaces with ēno interactive whiteboard - all without wires or cables. Ideal for new construction or school renovation, ēno flex is available in a variety of configurations, providing the flexibility to choose the board to fit classroom requirements without compromising wall space, aesthetics or teaching style. With one, multi-functional board from one supplier, ēno flex can be specified from the start of any classroom building project.

Features

- **Lowest total cost of ownership** : ēno flex combines the simplicity of a traditional surface with interactive performance into one board. With no cards, cables or high installation costs, ēno flex gives schools the longest lasting, most comprehensive interactive classroom solution on the market.
- **A single installation meets many classroom and budgetary demands** : Multiple configuration options eliminate boards with too much or too little usable space. And, since ēno flex combines interactivity with traditional surfaces, schools can take advantage of funding available for major renovation projects.
- **Supports green building initiatives and qualifies for LEED® points** : The e³ environmental ceramicsteel™ ēno and dry - erase surface are SCS Indoor Advantage Gold® certified, contain no volatile organic compounds (VOCs) and are recyclable.
- **Simplicity from start fo finish** : All ēno flex components ship from one supplier. Only one, easy-to-use multifunctional board to install.

About ēno

1

traditional dry-erase

Write on ēno all day long.
Erase with ease without damaging the surface.

2

magnetic ceramicsteel

Give students manipulatives for time-tested problem-solving.
it's Ok-ēno is tougher than magnets

3

interactive performance

Add a stylus, computer and projector.
And ēno is instantly interactive
